Background

The *Education and Care Services National Regulations 2011* define an emergency in relation to an education and care service as any situation or event that poses an imminent or severe risk to the persons at the service premises e.g. flood, fire or a situation that requires the service premises to be locked down.

Comprehensive emergency management includes prevention, preparedness, response and recovery.

Services are required to have policies and procedures in place detailing what needs to be done in an emergency, including an emergency and evacuation floor plan. These policies and procedures must be based on a risk assessment that identifies potential emergencies relevant to the service (Regulation 97).

Early childhood services have a duty of care to the children, staff, volunteers, students, visitors and all attending the facility. It is also a requirement under the *Occupational Health and Safety Act 2004* that employers provide a healthy and safe environment for all persons who access the service's facilities and/or programs.

All services in Victoria are required to have an *Emergency Management Plan* (EMP) as part of their everyday 'best practice' operations. The Department of Education and Training (DET) provides *Emergency Management Plan Guidelines* and an *Emergency Management Plan* template to assist services develop and review their EMP (refer to *Sources* below for the link). All services must complete the required sections of the plan and lodge it with the relevant DET regional office. A copy should also be attached to this policy.
